Authorization of Consent to Treatment of a Minor

In the event that your student is injured while at school we prefer to take him to his own family doctor rather than a stranger. Under all circumstances we attempt to contact the parent and notify them of the injury and seek their advice and consent for medical treatment. It is not uncommon, however, that a student is injured and for one reason or another, and the parents are just not available by phone. Sometimes they are out shopping or have been sent on an errand for their employer. This makes it awkward since doctors will not perform medical practice on a minor without the consent of the parents.

Just in case any of this should happen to you, we would like to place in our files the following blanket authorization. Then, if we are unable to contact you we can still take your student to his doctor and have an injury treated. If your doctor is not available or if the injury prohibits a long ride to his office, this authorization enables us to take him to the closest licensed physician. We covet your cooperation. Please enclose separate authorization forms for each child enrolled.

Please complete this form in duplicate. If we have to use one, it may be necessary for you to fill out an additional copy since most doctors prefer to keep it in their files after use.
